SECRET 25X1 - 2 -included about 40 tanks of type T-34/85, JS-2 and JS-3, 85-mm and 37-mm AA guns, 57-mm AT guns. 82-mm mortars and fourwheel armored scout cars. 25X1 6. The barracks installation adjoining the aforementioned installation to the 25X1 west (5181) quartered 2,500 to 3,000 troops. Service colors and heavy weapons were the same as those observed above. However, about 60 tanks were identified. 7. The surmer camps near Planken and Born were vacant, except for guard personnel. 8. Numerous T-34/85 and JS-2 and JS-3 tanks were seen on the tank training site about 12 km northeast of Hillersleben and in the adjacent clearings. At about 11:20 a.m. on 1 March, 8 JS-2 and JS-3 tanks were loaded over the ramp just west of Hillersleben Settlement and subsequently dispatched toward Neuhaldensleben. 25X1 At about 5 p.m. on 3 March, another 10 tanks of type T-34/85 and JS-2 were dispatched toward the same direction. 25X1 Between 2 and 3 p.m. on 9 Narch, all units from the abovementioned installations in Hillersleben left for a field exercise toward Born via Neuhaldensleben, taking along all heavy weapons. The rear was brought up by two trucks mounting troops and 4 mortars each. At about 5 p.m., truck occupied by 15 officers. 25X1 left the second barracks installation . It was followed by truck 25X1 occupied to capacity by troops wearing red-bordered black epaulets with tank insignia. Truck occupied by officers and dependents who wore uniforms 25X1 or civilian clothes, entered the installation. 5 Ť., 25X1 Comment. Tank details of the 7th Gds Tank Div arrived in the southern sector of Letzling Heath and left again between 1 and 6 March. See paragraph 9 of the report and The presence of these units at Letzling Heath is confirmed 25X1 Comment. Presumably, vehicles of the 207th Mtz Rifle Div which were observed in Luederitz and Jaevenitz. 25X1 Comment confirms the 153d Gds Hv Tank SP Regt of the 19th Gds Mech Div in Hillersleben up to 9 March 1954. So far, Lieutenant Colonel Potapov (fnu) had been held as commanding officer. Senior Lieutenant Gerasimov (fnu) is also known from previous reports. Contradictory information has hitherto been obtained regarding the quartering of the regiment. It is believed, however, that the regiment is stationed in the barracks installation east of Hillersleben 25X1 . The weapons identified except for the 85-mm AA guns, check with the equipment of a Heavy Tank SP regiment, as it is carried by this office. 25X1 The AAA probably belongs to the 2503th Gds AAA Regt of the 19th Gds Mech 25X1 Div which is also assumed stationed in Hillersleben. 25X1 Comment. the departure toward a northerly direction of heavy elements of the 19th Gds Mech Div stationed in Hillersleben. 25X1 Units of the division from Magdeburg also marched toward a northwesterly direction via the Elbe River. They participated in exercises of the LXXIX Mtz Rifle Corps in the northern sector of Letzling Heath and in the Stendal area. They returned on 12 and 13 March. 25X1 SECRET
